

DECEMBER 2025

ColorLogic® Accent Lights

Put Your Pool In a BETTER Spotlight

Any Smart phones, smart watches and tablets shown not included. App only.

The **Hayward® ColorLogic® LED Accent Lights** are ideal for highlighting various pool area features such as waterfalls, spillovers, or even palm trees or walkways. Available with two brightness modes, they can also be used for discreet, uniform pool and spa lighting or to light an entire pool or spa.

The 1 1/2" lights can be installed for wet or dry use within a 10' radius of the pool. For wet use, the lights are UL listed for both in-wall and on-floor applications (without the use of a guard). When submerged, the top of the lens should be no less than

ColorLogic® Palette

4" (10 cm) below normal water level.

The lights can be used with Hayward **OmniLogic®** and **OmniHub™** automation systems and **OmniDirect™** to unlock exclusive features like enhanced navigation, dimming and speed control plus access to programmed light shows and more luxurious colors.

The **ColorLogic® Accent Lights** are used with Hayward **ColorLogic® Laminar** and **ColorLogic® Bubbler** illuminated water features to create the ultimate ambience.

Omni™ App

SmartPower® Transformer - The Ultimate Theme Setter

The Hayward **SmartPower® Transformer LTSUY11300** can easily alternate the colors for up to four zones. You can change color between the pool, spa or water features without requiring additional HV relays or transformers.

The Hayward **SmartPower® Transformer** can only be controlled with **Omni®** automation systems and is **OmniDirect Mode™** compatible.

UL Listed and supports up to 75W per zone with no high voltage relay. Best used with **Hayward lights**.

ColorLogic® Bubbler
- Elevated Visual Appeal

The **ColorLogic® Bubbler** creates a cascading column of water. Multiple nozzles offer a wide variety of water heights and widths to match any pool environment. The plume can be adjusted to achieve the desired effect.

Blends with the environment with its small footprint, interchangeable color trim options and a two part design that incorporates a plastering ring for ability to adjust angle or height to match the surface of pool.

Illuminate the ColorLogic Bubbler with **ColorLogic®** or **CrystaLogic®** Accent lighting for a wide variety of options.

Ring Color Options

PROHAYWARD Blü™

Hi-Performance Filtration Media

BETTER FILTRATION. SAVE WATER, ENERGY & CHEMICALS.

Used to replace the sand in your sand filter housing **PROHAYWARD Blü Hi-Performance Filter Media** provides superior water quality equivalent to a DE filter.

Due to lower pressure drop, single speed pumps used with filters containing **PROHAYWARD Blü** media can be downsized to lower horsepower ratings – saving initial pump costs and operating expense. With variable speed pumps, you can decrease your pump speed and still maintain the same circulation flow rate – **Saves Energy.**

Just one bag of **PROHAYWARD Blü** replaces 100 lbs of sand reducing transportation and handling costs.

High dirt holding capacity increases cycle time and reduces frequency of backwashing. **Saves Water.**

ProSeries™ Filter with ProHayward Blü

More efficient filtration and reduced water usage help reduce chemical usage. **Saves Chemicals.**

PROHAYWARD Blü lasts longer than sand, will not degrade with flowing water and is 100% recyclable.

PROHAYWARD Blü can be included in the box with select models of your **Hayward ProSeries™ Sand Filter** for a limited time.

Hayward IMG offices will be closed
December 24th 2025 – December 25th 2025
& January 1st 2026
