LBCUSXXX  
Waterbowl LED Light

Add-on dramatic LED lighting integrates seamlessly with **Omni®** automation and helps transition effortlessly from day to night.

**OmniDirect™** Mode gives

you instant navigation to desired colors or light shows (no more cycling through every option).

Dimming capabilities (20% increments), Speed adjustment for light shows and access to 10 additional colors for increased customization opportunities.

OmniDirect™

## Illuminated LED Sheers

- Inspire **BETTER.**

### Illuminated LED Sheers

help transform any pool into a sophisticated aquatic escape with mesmerizing water effects in a variety of colors, shapes and designs made to complement any aesthetic.

Enhance any pool's ambience with soothing sights and sounds.

Sheer with  
Light insert

The industry-first top-access light eliminates light loss, regardless of length and is available in lengths from 1' to 8' for straight, curved or custom wall surfaces.

Can be used with **Omni®** automation and **OmniDirect™** Mode for better illumination and with Hayward variable speed pumps for greater versatility.

## Hayward DynaSkin™ Skimmers - Low Profile and Virtually Indestructible

Hayward skimmers are the preferred choice of professional pool builders. The skimmers are manufactured to Hayward's rigorous quality standards.

DynaSkin™  
SP1091WM

Their durable, unibody construction is molded of rugged ABS, and they've been designed without submerged joints.

Hayward DynaSkin™ Automatic skimmers are non-corrosive skimmer packages designed for the gamut of above ground pool and some in-ground applications. A smooth, contoured body, combined with the advanced, patented weir, removes debris more completely and efficiently.

DynaSkin™  
SP1091LX

The low-profile design gives you the flexibility of maximum installation height on decks and ledges.

Hayward skimmers come with multiple plumbing connections for easier installations.

The **HYPOMINI** system is a reliable and innovative ChlorKing® solution to address the need for hypochlorous acid production onsite which is much easier than ordering liquid chlorine and trying to get it shipped and stored safely.

The **HYPOMINI** system can be used in any situation where sodium hypochlorite or calcium hypochlorite have traditionally been used to sanitize and clean multiple surfaces.

The **HYPOMINI** is a powerful compact unit which delivers 2 gallons of HOCl onsite at 200/500/1,000ppm concentrations in as little as 8 minutes!

The **HYPOMINI** is a great addition for small businesses. The installation is easy with savings benefits over time.
