UNIVERSAL HC SERIES GAS HEATER WITH DUEL-FUEL TECHNOLOGY

The **Universal HC Series** gas heater from Hayward® has the industry's smallest footprint and allows replacement of almost any similarly sized gas heater.

New, clean interface

The small footprint with zero wall clearance fits in even the most

compact spaces, while the refined gas controls and remote connectivity provide a simple user experience with added service convenience.

The dual-fuel technology gas heater has an Easy-out mixing orifice that allows for easy in-field conversion between natural gas and propane and is uniquely

Easy-out
Mixing Orifice

engineered for use with Hayward® plumbing adapters.

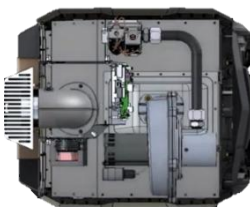

Exclusive plumbing adapters allow for simple drop-in replacement

Adapter Kit

The cupro-nickel heat exchanger is standard, protecting against water corrosion and natural wear and, the patented butterfly bypass valve enables flow rates up to 125 GPM without extra accessories

A quick access reversible top panel eliminates the need to remove side panels and kneel during service; easily swaps plumbing from right to left while providing access to gas shutoff, voltage selection and more, all via a single fastener.

Easy Top Access

Low NOx emissions meet clean air quality standards and offer premium heating performance.

Currently available in 60Hz only.

Amerec AK Steam Generators – First Class Performance

Easily add luxury to a shower with an enclosure and the addition of a steam generator and control

The **Amerec AK** steam generator uses full power to quickly heat up the steam room to its preset temperature, then cuts power to half its elements. The result is a more consistent flow of soft steam and more stable temperature.

The **Comfort Flo Steam Head** gives an improved dispersion pattern that provides even heat throughout the steam room. The steam head's internal Ryton plastic insulator prevents the exterior metal surface from reaching high temperature.

ComfortFlo
Steamhead

Amerec is a separate, independent company. **Amerec** steam generators can be consolidated with your Hayward shipment for convenience and cost savings.

Airbar from Paramount is a channel system that along with a spa blower delivers a rush of bubbles, infusing life and excitement into still waters.

It allows you to create the look of a bubbling volcano,

river rapids or an exciting, aerated feature on your pool & spa floor, bench or shelf. Best when used with a **Hayward Spa Blower**

Available in complete kits that create fun, unique water shows or combine your imagination and our Airbar fixtures to create your own shape!

The Airbar can also be used to aerate ponds and water features.

Hayward Jet-Air® III Hydrotherapy Fitting

The **Jet-Air III** system is one fitting that does it all – adjustable, fully directional and recessed!

Interchangeable jet nozzles allow for multiple configuration options to achieve the massage effect you want. Control the water and air flow right at the jet face.

The swivel ball assembly is fully recessed in the wall fitting and has full regulation at the nozzle.

SP1434 VariFlo – Fully adjustable and directional

The Jet-Air III gives high performance action and requires just 10 gpm for efficient operation.

Use the Jet-Air III for hydrotherapy/whirlpool action in both in-ground and above-ground spas for the ultimate massage with water heated by a Hayward heater.

Hayward Spa Blower – Turbo Charge your Spa Experience

The **Hayward Spa Blower** delivers quiet performance and powerful, soothing bubbles that instantly enhance any spa experience.

A unique motor with replaceable parts extends product life, while a 1-year warranty offers added peace of mind. Available in multiple voltages and horsepower ratings.

The full spring check valve prevents water from reaching the motor and a unique rubber motor base provides extremely quiet operation.

With simple installation and maintenance, our Spa Blower will provide maximum relaxation every season along with signature Hayward Jet fittings and heating solutions for a **Totally Hayward Spa Experience**.
