

OFF-LINE INSTALLATION

NOTE: Chemical feeders should always be installed on the return line after the last heating appliance.

CAUTION: Extreme care must be exercised when adding chemicals to your pool. Concentrated chemicals may react violently if they mix in the chemical feeder, causing a fire or explosion, which may result in **PROPERTY DAMAGE, PERSONAL INJURY** or **DEATH**.

CAUTION: Never use petroleum based lubricants on any of the chlorinator o-rings. Regular cover o-ring lubrication is necessary to maintain easy cover removal. Use non petroleum based lubricants such as Hayward Jack's Formula 327 Multilube (SPX0327).
