*When sold by a Totally Hayward® Partner. Exclusions, other terms and conditions may apply—visit hayward.com/expert for details.

BRIGHT THINGS COME IN SMALL PACKAGES.

As the only wet and dry landscape lighting solution certified for use within 10 feet of the waterline, ColorLogic® 80 LED lights are the perfect choice for just about anywhere around—or in—the water. Their niche-free design makes them slimmer and brighter than any other lights available, giving pool owners unprecedented power to put their creative brilliance on display.

SMALL IN SIZE, BIG ON BRIGHTNESS

Even though these ½” lights are the smallest on the market, they still pack a huge punch—with industry-leading lumen output for a dramatic lighting effect.

EASY, NICHE-FREE INSTALL

Designed to mount directly into schedule 40 PVC conduit without the need for complicated bonding or grounding, ColorLogic 80 lights are ideal for multi-light layouts that require precise placement.

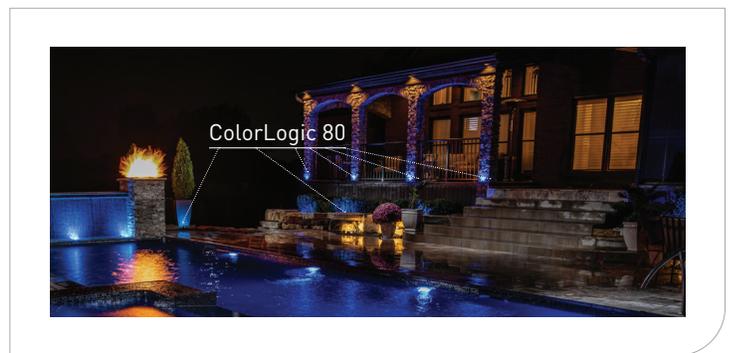

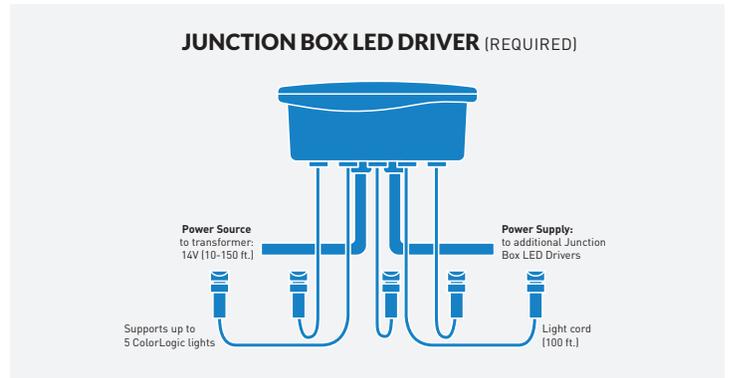

5 JUNCTION BOX LED DRIVER

It's easy to connect and control up to 5 ColorLogic 80 lights with just one Junction Box LED Driver (required), greatly reducing the need for costly conduit runs.

ADDITIONAL BENEFITS

- » **Wet & dry**—the only LED lights permitted for use within a 10-foot radius of the pool
- » **Versatile application** illuminates steps, decking, water features, waterfalls, landscapes, sun shelves, sheer cascades, bubblers, up-lighting and more
- » **OmniDirect Mode™ compatible** for even more color and control options
