

# ENERGY SAVINGS, CONTROLLED BY YOU.

## MaxFlo VS 1HP

Variable Speed Pump

Saving you up to 80% over single speed pump alternatives.

 **HAYWARD**<sup>®</sup>  
We Build Better.™

# MaxFlo VS

## Variable Speed Pump

**ENERGY SAVINGS,  
YOU CONTROL.**

- **Save electricity and money.** A reduction in pump speed of 50% will reduce energy consumption by up to 80%.
- **Better filtration.** The filter can often remove smaller particles when the water moves through slower.
- **Programable interface** allows you to customise countdown timers and priming time.
- **Aligns with the entire MaxFlo line of pumps** for seamless retrofit installations.

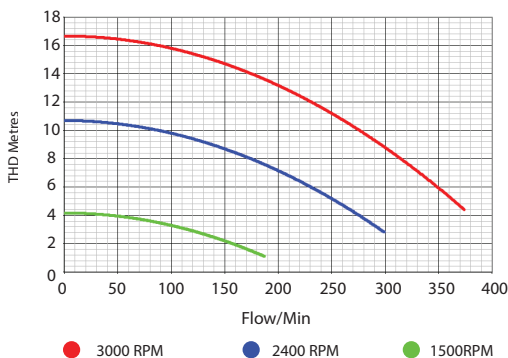

**\*2 years + 1 year** if purchased from a Totally Hayward Partner.

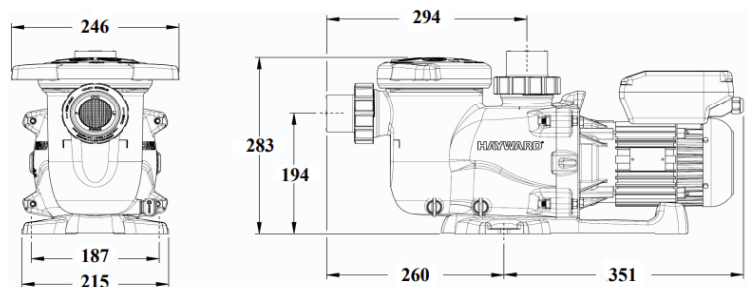

**The MaxFlo VS** is part of our Green Future range.
