

Paralevel®

Innovative Water Leveler

IT WORKS BEHIND THE SCENES

Paralevel automatic water leveler works continuously behind the scenes to maintain your pool or spa at the ideal water level automatically. With its easy posi-click adjustment, one full turn changes the water level by $\frac{1}{4}$ " (6 mm) for quick manual fine-tuning when needed. Unlike traditional water levelers, Paralevel features smart-sensing technology that reacts only to the pool's true water level. This prevents rapid cycling, to help reduce wear and tear, minimize the risk of premature failure, and eliminate loud water hammer that can damage home plumbing.

- » Simple to set, use and winterize
- » Easy, accurate "Posi-Click" adjustment
- » Small footprint on your pool deck
- » "Smart-Sensing" not affected by water splashing
- » Large balance line
- » Overflow line ready
- » Quick fill capable
- » Paver model and Pour-a-lid available

Three Deck Lid Colors

-  White
-  Light Gray
-  Beige
