TAKE A DIP—EVEN WHEN TEMPERATURES DO TOO.

ECONOMICAL TEMPERATURE CONTROL OPTIMIZED FOR SMALLER POOLS

With lower energy requirements than natural gas and propane heaters, the HeatPro heat/cool heat pump platform is an economical temperature control solution optimized for smaller pools. Providing ideal water temperatures even under harsh conditions, it gets the swim season off to an earlier start in the spring while also extending it later into the fall. Plus, with a built-in programmable timer, it creates comfortable water to suit any schedule.

Digital control panel displays temperature and allows for simple control of settings

Advanced heat pump technology uses less energy than natural gas and propane heaters

Efficient rotary compressor and low-noise fan guarantee extremely quiet operation

Durable titanium heat exchanger provides exceptional corrosion protection

AHRI CERTIFIED

AHRI certified and independently lab-tested to ensure the highest quality performance and value.
